## Capacity Building initiatives

Afghan Innovative Consulting Bureau is dedicated towards building the human capacity in Afghanistan in order to support real economic growth in the country.

AICB has been providing range of capacity building services to the **private sector/Gov't departments** through providing workshops, trainings, seminar and a monthly magazine/publications called (Panga).

AICB is using innovative and in demand training methods in different trainings which are highly interactive, participatory and market oriented.

AICB is publishing Monthly Maga-

zine called PANGA in local languages (Panga means investment). The Magazine is focusing on economic growth related issues, business development, marketing, new technology etc. The magazine contains articles, reports and major news for awareness and capacity building of local businesses. The magazine also represents the voice of business people of the country and provides better understanding of local business/investment problems for policy makers.

## ACHIEVEMENTS:

- More than 370 entrepreneurs are trained in internet usage in Kandahar and Kunar Provinces
- More than 400 entrepreneurs including (180 women) are trained in SMEs development in the above mentioned provinces
- **Different advance technical trainings are provided to number of Gov't staff members**
- The Panga Magazine is regularly printed and distributed throughout the country
- 13 Major seminars and conferences are conducted in Kandahar and Kunar province focusing on different economic, business/trade related topics
- Comprehensive surveys are conducted in order to explore the main factors affecting afghan SMEs in southern and eastern regions
- A Business Resource Center is established in Kunar Province and a training institute is formally supported in Kandahar to provide SME related trainings

**Trainings in advanced technology**

**Panga Magazine**
